PROFESSIONAL SUMMARY

Driven UI/UX Lead Designer with 7+ years of expertise in designing user-centric experiences for web and mobile platforms, combined with strong front-end development skills in Angular, ReactJS, and other frameworks. Proficient in the end-to-end design lifecycle, including user research, wireframing, prototyping, and responsive design. Recognized for delivering innovative, high-quality solutions that align with client goals and enhance user engagement, while effectively collaborating with cross-functional teams.

WORK EXPERIENCE (7+ years)

UI/UX Module Lead | Varseno Solutions, Pune | Jan 2022 - Present

As a UI/UX Module Lead, I have driven the design and development of user-centric interfaces for multiple high-impact client projects. My expertise in user experience principles and front-end development has enabled the delivery of innovative, technically sound solutions that enhance user engagement and satisfaction.

- Led the UI/UX design strategy and execution for client-side applications, aligning user experience with business objectives and client requirements.
- Designed wireframes and prototypes using Figma and Adobe XD, iteratively refining based on client feedback and usability testing.
- Delivered high-fidelity mockups and specifications for developer handoff, ensuring design integrity during development.
- Collaborated with front-end developers on layout integration and custom plugin creation, contributing actively to the development process.

Sr. UI/UX Designer | Varseno Solutions, Pune | Jan 2021 - Dec 2021

In my role as a Sr. UI/UX Designer, I combined design expertise with front-end development skills to contribute to various projects, significantly enhancing the company's digital presence and internal branding.

- Executed complete design and development of the company website and internal branding assets, enhancing the company's digital footprint.
- Developed responsive Angular-based interfaces for client projects, enhancing usability across devices and maintaining high performance.
- Mentored junior designers and interns, conducting sessions on design best practices, front-end fundamentals, and project requirements.
- Engaged in detailed client feedback cycles, refining UI/UX design elements and ensuring consistent branding across platforms.

UI/UX Designer | Varseno Solutions, Pune | Aug 2017 - Jan 2021

As a UI/UX Designer, I delivered design and development solutions for government websites and enterprise-level applications, balancing user needs with technical requirements.

- Led UI/UX design efforts for government websites in Muscat, Oman, ensuring compliance with user accessibility standards and enhancing user experience.
- Developed front-end solutions for enterprise-level applications using Angular and ReactJS, delivering high-quality, responsive designs.
